### CRITICAL RAW MATERIALS POTENTIAL IN NORTH EASTERN EUROPE

CONFERENCE SEPTEMBER 21-22 2021, TALLINN ESTONIA

A conference focusing on Exploration, Mining and Sustainable Management of the use of Critical Raw Materials.  
A FUTURE MINE & MINERALS CONFERENCE

#### EXCHANGE AND SHARE EXPERIENCES

##### Short info text - English

Geological Survey of Estonia; Tallinn University of Technology – Department of Geology and University of Tartu – Department of Geology; in cooperation with Nordic Publishing are proud to invite you to “**CRITICAL RAW MATERIALS POTENTIAL IN NORTH EASTERN EUROPE – FUTURE MINE AND MINERALS CONFERENCE**” on September 21-22 2021 at Swisshotel in Tallinn, Estonia.

“**CRITICAL RAW MATERIALS POTENTIAL IN NORTH EASTERN EUROPE - Future Mine and Minerals**” is an international mining and exploration conference - a physical platform for networking and sharing of the latest business intelligence and opportunities, trends, politics and hands-on insights from the mining and exploration sector.

The conference will bring together representatives from Estonia, Finland, Sweden, Latvia, Lithuania, Poland, Russia, Germany and countries associated with mineral exploration and mining, including companies, industry associations, politicians, regulators, public servants, experts and service and equipment suppliers. High-level representatives from the European Commission, embassies and NGOs will also attend the conference.

Focusing on, scientific, industrial and commercial advances on Critical Raw Materials, the event will feature keynote speeches, seminars, site visits and solutions exhibition, as well as debate, face-to-face meetings and networking.

##### THE CONFERENCE WILL HIGHLIGHT ON:

- Green Deal and the need for Critical Raw Materials
- Mineral policies, regulation, taxation
- Critical Raw Materials potential for North Eastern Europe
- Exploration methods for Critical Raw Materials: classical and new approaches
- Phosphorite and REE
- Sustainable Management of Phosphorus in North Eastern Europe
- Sustainable Management of the use of traditional and Critical Raw Materials
- Circular Ecosystem of Critical Raw Materials
- Social License to operate
- Financing new CRM projects
- Creating an Attractive Investment Climate
- The Investors Approach to CRM

##### RESEARCH AND INNOVATION FOR CRITICAL RAW MATERIALS FOCUSING ON:

- Battery Minerals / Metals
- New areas of interest for CRM, including energy and transportation sector
- Strategic Minerals

## KRIITILISE TOORME POTENTSIAAL KIRDE-EUROOPAS

21-22 2021 SEPTEMBRINI, Tallinn, EESTI

Konverents, mis keskendub elutähtsate toorainete uurimisele, kaevandamisele ja säästvale majandamisele. TOORAINE JA KAEVANDAMISE TULEVIKUST

### KOGEMUSTE VAHETAMINE

Eesti Geoloogiateenistus, Tallinna Tehnikaülikooli Geoloogia instituut ja Tartu Ülikooli geoloogiaosakond koostöös Nordic Publishing'ga kutsuvad teid konverentsile „**KRIITILISE TOORME POTENTSIAAL KIRDE-EUROOPAS – FUTURE MINE & MINERALS konverentside seerias**”. Konverents toimub 21–22. septembrini 2021 Tallinnas, Swisshotel'is.

**Konverents - KRIITILISE TOORME POTENTSIAAL KIRDE-EUROOPAS** – on rahvusvaheline kriitiliste, kõrgtehnoloogiliste elementide otsingutele, uuringutele ja kasutamisele pühendatud kokkusaamine, kus on võimalik osalistel arendada koostöösidemeid, vahetada teadmisi ja kogemusi ning arutada ressursidega seonduva poliitika üle.

Konverentsile ootame esindajaid Eestist, Soomest, Rootsist, Lätist, Leedust, Poolast, Venemaalt, Saksamaalt ja teistest maavarade uuringute ja kaevandamisega tegelevatest riikidest.

Samuti ootame ettevõtete ja tööstusühenduste esindajaid ning poliitikuid, seaduseandjaid, ametnikke ning tehnilist tuge ja seadmeid pakkuvate ettevõtete esindajaid. Konverentsil osalevad ka Euroopa Komisjoni, saatkondade ja valitsusväliste organisatsioonide kõrgetasemelised esindajad.

Keskendudes kriitiliste toorainete uuringutele, kavandamisele, tööstuse ja kaubanduse edusammudele, esitatakse üritusel ettekandeid, peetakse seminare, toimuvad külastused ettevõtetesse ja geoloogilistele objektidele, toimub valdkonna-alane näitus, samuti toimuvad arutelud, näost-näku kohtumised ning luuakse koostöövõrgustikke.

### KONVERENSI PÕHITEEMADEKS ON:

- Euroopa roheline kokkulepe ja kriitiliste toorainete vajadus
- Maavarapoliitika, reguleerimine, maksustamine
- Kriitiliste toorainete potentsiaal Kirde-Euroopas
- Kriitiliste toorainete uurimismeetodid – nii klassikalised kui ka uued lähenemisviisid
- Fosforiit ja haruldased muldmetallid
- Fosfori jätkusuutlik majandamine Kirde-Euroopas ja mujal
- Traditsiooniliste ja kriitiliste toorainete kasutamise jätkusuutlik majandamine
- Kriitiliste toorainete ringmajandus
- Sotsiaalne tegutsemisluba
- Uute kriitilise toorme projektide finantseerimine
- Atraktiivse investeerimiskliima loomine
- Investorige lähenemine kriitilise toorme projektidele

### Kriitiliste toorainete uurimine ja innovatsioon, keskendudes järgmisele:

- Akumetallid ja mineraalne tooraine
- Kriitilise toorme uued huvivaldkonnad, sealhulgas energia- ja transpordisektor
- Strateegiline tooraine
